Introduction to Cardiac MRI

18-19 March 2022 Online

Overview

A two day course, specifically designed for all staff who perform cardiac MRI examinations or are planning to do so. It will provide the underpinning knowledge to help you carry out the practical imaging and build your confidence to produce high quality diagnostic examinations.

It is ideal for radiographers new to cardiac MRI and those who wish to understand more about cardiac anatomy, scanning tips, techniques and protocols.

Glenfield Hospital, Leicester has provided excellent cardiac MRI services for over two decades, the clinical experts will share their experiences, alongside other invited speakers who are specialists in this field.

Course Content *Topics to include:*

- ✧ **Cardiac anatomy**
- ✧ **Basic Physics for cardiac MRI**
- ✧ **Pulses sequences**
- ✧ **Imaging planes and planning**
- ✧ **Case studies and patient management**
- ✧ **Image optimisation and how to minimise artefacts**
- ✧ **MRI Safety to include scanning pacemakers/stents**
