

Introduction to Cardiac MRI

18-19 April 2024 Online

Overview

A two-day course, specifically designed for all staff who perform cardiac MRI examinations or are planning to do so. It will provide the underpinning knowledge to help you carry out the practical imaging and build your confidence to produce high quality diagnostic examinations.

It is ideal for radiographers new to cardiac MRI and those who wish to understand more about cardiac anatomy, scanning tips, techniques and protocols.

Glenfield Hospital, Leicester has provided excellent cardiac MRI services for over two decades, the clinical experts will share their experiences, alongside other invited speakers who are specialists in this field.

Course Content *Topics to include:*

- ✧ Cardiac anatomy
- ✧ Pulses sequences
- ✧ Imaging planes and planning
- ✧ Practical tips and tricks to optimise image quality
- ✧ Case studies and patient management
- ✧ Image optimisation and how to minimise artefacts
- ✧ MRI Safety to include scanning pacemakers/stents
